THE "BULL-DOG" BOTTLING MARKS.

READ BROTHERS, of London, find it needful to state, for their own protection and that of the public, that they are the Owners of both the original "Bull-Dog" Bottlings, Marks which were originated solely by them in connection with their Bottling Patent.

Any subsidiary bottler using the "Bull-Dog" Mark is accountable to Read Brothers, and must deface the Mark with a signature written across it to show its origin.

But Consumers of so-called "Bull-Dog" Beer should note that there are two distinct brands; one being a Bull-Dog and the other a Bull-Dog's Head. Both Brands belongs to Read Brothers, but they and they alone use the Bull-Dog's Head to authenticate their own bottling of Bass's Ale and Guinness's Stout, and they cannot answer for any other.

CAUCASIAN
INSECT POWDER.

A MASS of spontaneous testimony has been received from all parts of India proving the surpassing efficacy of this powder in destroying Fleas and other noxious insects in Dogs and domestic animals. "Boon to sportsmen," "absolutely and thoroughly efficacious," "most satisfactory," "economical," "unparalleled," "admirable" and such like expletives which have been applied to it by no means exaggerate its excellence. *Vide* letter by "Glencairn" in the *Asian* of February 3, 1880. Be careful not to accept any other Powder as "the same thing." Ours is obtained from a Special Source and is endowed with an activity not approached by any other.

Tins Re. 1, Rs. 1-12, and Rs. 3-8.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, JUNE 16.

Consols are still at 100⅜ and French Rentes at 119½, but enfaced Rupee Paper continues to show the effect of the steady decline in Silver, being ¼ per cent. lower in Fours, which now stand at 84⅝, and ½ lower in Fours-and-a-half, which are quoted at 91.

Reuter's weekly quotations for metals show no movement. Coffee and Cocoanut Oil are unaltered. Linseed is quieter and Rapeseed firmer.

The Manchester Piece-goods market comes firm, and Cotton in Liverpool yesterday closed steady at unaltered prices all round, the day's sales being estimated at 8,000 bales, of which 500 were Surats. In New York ready Mid-Uplands still stand at 11 1-16 cents, but September shipments has advanced from 10·67 to 10·72 cents. per lb. The receipts up to date are as follows :—

	1881.	1880.	1879.
Wednesday's Receipts.....	4,000	2,000	1,200
Five days' ,, ...	21,000	12,800	4,600
Total since 1st September.....	5,570,000	4,805,300	4,406,000

During the day a Reuter's telegram has come to hand to the effect that "the Agricultural Bureau's monthly report gives the condition of the crop of ten cotton States at 93 per cent." At the same time last year the condition was estimated at 97·8, in 1879 at 95·8, and in 1878 at 98·1, so that the report is to some extent against the crop. At the same time it must be borne in mind that June reports are not altogether reliable, and there is nothing so far, judging from the acreage which has been planted, to prevent a crop of 7¼ millions, or perhaps even more.

Exchange.—The rate at which Council drafts were allotted, and the accompanying drop in Silver to 51d. per oz., caused the market to open very weak, and the Banks declined to name better than 1s. 7 15-32d. for demand, and were buyers of 3 months' Credits at 1s. 7 21-32d. Telegraphic advices from Calcutta, however, coming somewhat steadier, a partial recovery of 1-32d. took place ; and later in the day, when the report regarding the loan became current, a further rise of 1-32d. to 1-16d. took place So far as we know, there is absolutely nothing known yet regarding the forthcoming loan, and the only reason for any advance in Sterling exchange in connection with it is the possibility of it being taken up in London. It is difficult, therefore, to see why the announcement should have had such a marked effect, and in all probability we will find the upward movement very temporary. We quote at the close :—

Bank Bills on demand	1s. 7 17-32/9-16d. per rupee.	
Do. telegraphic	1s. 7¼d.	,,
Do. 3 months' sight	1s. 7⅜d.	,,
Credits, 3 ,, ,, ..	1s. 7⅜d.	,,
Documents, 3 ,, ,, ..	1s. 7⅜d.	,,
Francs, 3 ,, ,, ..	2·07½	,,

On Calcutta there is no change.

Government Paper this morning opened steady, and for a time there were buyers of both Fours and Fours-and-a-half at 13-16, but after receipt of telegrams from Calcutta, that a new loan was coming out, a sudden drop took place to Rs. 104¾ for Fours and Rs. 111¾ for Fours-and-a-half. Even at these figures there is nothing doing, nor is it a matter for surprise, as we learn that by wire from Calcutta rates come Rs. 104 and Rs. 111, respectively. Nothing whatever of a definite character is yet known regarding the loan, either as to the time of issue or date for subscription ; but the mere announcement that a new loan is coming out has, as we anticipated, been sufficient to collapse the speculation previously going on here. We hear it said, and possibly enough it may be true, that allowing in every way for the new prices, prices of Government Paper are not too high, but if buyers will only come to consider that they are now paying within a trifle of the value of Consols, they may perhaps begin to see something of the absurdity of the position.

Shares.—The general tone of the market to-day has been quiet. Bank of Bombays are ¼ per cent. easier at Rs. 772½. In Land Companies, the only change is a decline of Rs. 20 in Colabas. Press Companies are quiet and tending downwards, and, as a general rule, Spinning and Weaving Companies are Rs. 5 to Rs. 10 lower.

Cotton has been, if anything, a trifle firmer to-day, and sellers are asking an advance of Re. 1 to Rs. 2 per candy. Sellers, however, have been averse to paying any advance, and for all practical purposes no real change can be quoted.

Linseed is in active request, and reduced supplies, coupled with an active demand, has pushed up prices to Rs. 6-4 to Rs. 6-5 per cwt. Rapeseed nominally has also risen to Rs. 6-1 to Rs. 6-2 for new Guzerat.

Freights are quiet at previous figures.

Piece-goods are still dull on the spot, nor is there any appearance of an improvement in arrivals. The present break in the weather is not looked upon at all favourably, and until the rains are more assured in character we can scarcely look for the position improving.

Coals are quiet at previous prices.

The Bombay Gazette

FRIDAY, JUNE 17, 1881.

There was a rumour current yesterday that Government had announced in Calcutta its intention to issue next week a 4 per cent. loan for three-and-a-half crores. The consequence was a fall of 4 per cents. to 104⅛ ; later in the day, they recovered to 104 5-16. So far as we can learn, there was no ground for the report except a similar rumour in Calcutta. The immediate issue of a loan is not unlikely, but there is as yet nothing positively known as to the intention of Government.

We are glad to see that the Government of India are inclined to do something towards remedying the inconveniences under which the Bombay public have so long laboured in consequence of the arrangements of the G. I. P. Railway. The official paper which we give in another column shows that the Government of India are not only willing to sanction the alterations recently suggested by the Bombay Government, but have expressed their opinion that still further improvement is practicable and desirable, in the shape of a foot-bridge over the railway at the Nesbit Road level-crossing. The plan sanctioned by Government, and estimates for carrying out which are called for, includes the removal of the Byculla station to a site north of its present position ; the construction of a new bridge in place of the present ugly, inconvenient, and even dangerous structure which links the east end of Clare Road with the west extremity of Love Lane ; the continuation of Shepherd's Road, which runs from the east end of Clare Road skirting the Byculla Education Society's property, to a point on the Mazagon Road east of the Jamsetjee Hospital and west of Hancock Bridge ; the removal of the engine shed from its present position near the Nesbit Road crossing to Parel ; and the erection of a foot-bridge over the railway at the crossing for the convenience of foot passengers. This combined scheme of course means a very great improvement on the present state of things. The large and growing cart and carriage traffic between Mazagon and the docks and Byculla would be relieved by the new bridge, which would greatly improve the outlet from Love Lane, a route already very largely used in preference to the obstructed, if more direct Nesbit Road, and a fresh outlet would be afforded by the proposed new street from Hancock Bridge to Shepherd's Road ; while for the Nesbit Road pedestrian traffic a foot-bridge would meet all requirements. There is, as we say, much to be thankful for in this ; but we are disposed to follow the example of Oliver Twist and cry for more, especially as it seems to us that while the Railway Company and the Government are about making improvements and spending money they might give us a great deal more without much extra trouble and cost. Some years ago, when this question of the inconveniences of the Byculla Bridge and the Nesbit Road crossing was being discussed, Mr. Rienzi Walton, the Executive Engineer to the Municipality, drew up a scheme which we think would be much more acceptable to the public, and would afford in every way a better solution of the difficulty than the plan now proposed by the Government of Bombay and the Government of India. Between the Jamsetjee Hospital and Love Lane the Parel Road makes a considerable detour, in which the present awkwardly curved Byculla Bridge occurs. Mr. Walton proposed to carry the Parel Road straight from the front of the Jamsetjee Hospital, through the north end of Berkeley Place (belonging to the G. I. P. Railway), cutting off a piece of the compound of the Nawab's Bungalow (now the Freemasons' Hall), passing east of the Byculla station, and taking up the existing road at the northern foot of the present bridge. The railway line would be crossed just where it meets the Nesbit Road, and a bridge would be built with a spur communicating with that thoroughfare. This project, which we believe would not cost very much more than the three several improvements suggested in the Government Resolution—the new Byculla Bridge, the new road, and the foot-bridge, and to which the Corporation would certainly more willingly contribute than to the widening of the existing bridge, would meet all requirements, would be a great improvement to that part of the town, and would be generally acceptable. It would, besides, settle the question for ever, whereas if the Nesbit Road is improved only to the extent Government propose, though the public may be satisfied for the time, in a very few years the growth of the ever-extending traffic, both on the roads and the railway, will demand that the Nesbit Road shall no longer continue a "no thoroughfare," and a bridge will have to be built ; probably, from increased value of the property, at a considerably enhanced cost beyond what it could be constructed for now. The removal of the Byculla station is necessary for the Railway Company's own purposes, and would be in no way affected by diverting the Parel Road according to Mr. Walton's scheme. The transfer of the running shed from the neighbourhood of the Nesbit Road crossing is another improvement which extension of traffic will render desirable, if it is not already required, in the Company's interests. Seeing that Government have taken the matter in hand in a spirit which recognises that the public have grave grounds for complaint, we think it will be a pity if the best scheme for the present and for the future is not adopted ; and we venture to draw attention to Mr. Walton's proposal, which appears to have been lost sight of in the latest phase of the discussion, though it was generally approved of at the time it was drawn up, and would have been carried out only that the G. I. P. Railway authorities, who did not care two straws for the public convenience so long as Government permitted them to set just claims at defiance, shrunk from the cost and backed out of it.

It is curious to observe the contrast which is to be seen between the confidence with which the project of South African confederation was regarded by the British Government and public four years ago and the deep dejection and distrust with which the idea is surrounded now. It was in the year 1877 that the South Africa Act became law, the cardinal object of which was to confederate the colonies and dependencies of the Crown in South Africa into a dominion on the general model of the Dominion of Canada. And it will be remembered that hardly a voice was raised against the proposed alteration of the relations between the Home Government and its South African possessions, beyond the opposition of a small knot of Home Rulers, who were understood to be opposing the measure simply on the purest principles of indiscriminate obstruction. The passing of the South Africa Bill through Committee was the occasion of the famous twenty-six hours

(FROM OUR OWN CORRESPONDENTS.)

THE LATE ATTACK ON THE ITALIAN EXPLORING PARTY.

SIMLA, JUNE 16.

A telegram from the Resident at Aden reports that Signor Guilietti, Secretary to the Asab Commissioner, Signor Briglieri, the Sub-Lieutenant, and ten seamen of the Italian Gunboat Eltori Bamosco, and also two other Italians and two native servants, comprising every member of an exploring party, were killed about twelve days' journey from the sea coast south-west of Beilul by the Dankalis or Danskils on the 25th May. Two causes are assigned for the outrage: first, the imprisonment by Signor Guilietti of a Sheikh for theft; and second, plunder in the belief that the party escorted rich presents to Abyssinia.

The appointment of a junior Under-Secretary in the Foreign Department has been revived: the salary of the appointment is to be Rs. 1,200 per mensem.

CHOLERA IN THE 8TH (KING'S) REGIMENT.

LAHORE, JUNE 16.

Cholera has broken out amongst the 8th King's Regiment at Mecan Meer. The cases are rapidly fatal. Fifteen deaths have occurred. The regiment leaves to-night for Chundamunga, where there is a cholera camp, 40 miles from Lahore. Some 20 deaths have also occurred in the native bazaar at Mecan Meer.

The heat is very great here.

The *Civil and Military Gazette* publishes a statement that the Agricultural Department will be revised on the old scale of establishment. Mr. Buck will probably be Secretary.

THE GOVERNORSHIP OF MADRAS.

Sir U. C. Aitchison probably goes as Governor of Madras.

THE LIEUT.-GOVERNORSHIP OF THE PUNJAB.

Mr. Mellville, of Baroda, probably succeeds Sir E. Egerton as Lieutenant-Governor of the Punjaub in April next.

The appointment of a civil servant to Madras may mean the reduction of Madras to a Lieutenant-Governorship.

There are a few cases of cholera at Lahore, but strong sanitary measures are being adopted.

AFFAIRS IN AFGHANISTAN.

(FROM THE PRESS COMMISSIONER.)

SIMLA, JUNE 16.

Further details of the fight at Girishk between the Amir's troops and those of Ayoub show that the latter lost 40 or 50 killed, while the Amir's troops had only two men wounded. Hashim Khan was not present: at the fight; he appears to be still in the neighbourhood with some cavalry. Sirdar Muhamad Hasan Khan, with three hundred of Ayoub's cavalry, has crossed the Helmund, and occupied Singbur, and made a raid on the village of Miskarez. Fresh reinforcements are being moved up to Girishk, and it is intended to send out a force to drive back Muhamad Hasan across the Helmund.

THE following medical officers are formally gazetted to the rank of Brigade Surgeon:—Surgeon Majors L. S. Bruce, W. P. Partridge, H. Cook, M.D., M.R.C.P., J. Pinkerton, M.D., C. Joynt, M.D., F.K.Q.C., W. E. Cates, J. Cruickshank, C. K. Colston, W. H. Colvill.

THE shipping charge on opium shipped at the Prince's Dock has been reduced from six annas to four annas per chest of 140 lbs. and from three annas to two annas per half chest.

NOTICE is given in the *Bombay Government Gazette* that the periodical Sessions of the Civil and Military Examination Committee will in future be held on the first Monday in every month, instead of on the 10th February, 10th July, and 10th November as heretofore.

THE annual Central Presidency Rifle meeting is to be held at Poona in the month of September next. A large assembly of competitors is expected, notwithstanding the absence of several regiments over the frontier. There was no meeting last year owing to the Afghan war, so the Adjutant-General for Musketry should have funds at his disposal which will enable him to arrange a splendid programme. There will, we suppose, be two years' medals to be shot for and won.

WITH the sanction of the Government of India, the Right Honourable the Governor in Council is pleased to direct that the 30th N. I. (Jacob's Rifles) shall, from and after the 1st August, 1881, be converted into a *Belooch Battalion* and designated the 30th Regiment N. I. (or 3rd Belooch Battalion, *late* Jacob's Rifles), and be placed on the same footing as regards pay, allowances, clothing, equipments, camp equipage, public carriage, regimental establishments (including recruit boys), &c., as at present obtains in the other two Belooch regiments of this army (the 27th and 29th N. I.)

THE Central India Horse shikar party, consisting of Lieutenant-Colonel Gerard, Lord A. Compton, Lieutenant Greenwood, 10th Hussars, and Baron de Kund, a sporting Austrian, broke up near Seepree on the 1st instant. Their bag for the two months consisted of 18 tigers and 1 cub caught alive, 5 panthers, and 9 bears, besides 23 head of beetul, deer, &c.

A CURIOUS outcome of the recent discussions on Parsee religion here is a specially enthusiastic observance of some of the rites and ceremonies which gives the Zoroastrian religion a tinge of idolatry. It is said that some Poona Parsees have taken to offering their spiritual head such visible tokens of worship as are enjoyed by the Hindoo Maharajas, and the editor of the *Rast Goftar* cautions his co-religionists from running away to the other extreme in religious zeal.

AN ingenious book in Persian has lately been published at Lucknow. It is entitled *Panj Ganj-i-Khusrawi*. If read in lines across the page, it is a prose story. The first words of each line yield a story in verse, as also do the last words of each line. Two more stories in verse are found by taking, in transverse columns, certain words in the middle of the lines.

A CALCUTTA paper triumphantly notes that—"The channel of the river Hughli cannot be deteriorating very much when the s. s. Hankow is able to go down the river drawing 26 feet 6 inches."

THE *Pioneer* understands that the Government of India have decided that the Agency at Gilgit shall, for the present, be withdrawn. Colonel Tanner will accordingly return to India during the present summer, while the weather is favourable and the roads open and easy to be traversed. Dr. Duke and the escort of the 1st Punjab Infantry will accompany Colonel Tanner, who, according to the latest reports, had been laid up with severe headache and chronic neuralgia. The Gilgit Fort will, it is supposed, be held by the troops of the Maharajah of Kashmir.

"IT is not easy the *Pioneer* remarks, "to understand the principle on which the system of money gratifications recently adopted in the British Army, is confined only to the generals commanding. We say recently adopted, for the present which a grateful nation, delivered from the dread shadow of Napoleon, devoted to the purchase of Strathfieldsaye is quite beside the point. In the later days of the Roman Empire, certainly, the practice existed of rewarding military services in cash; but when the Roman army fell to that, it was not the generals only, but the officers and the soldiers also, who shared the *largesse*. It is all very well to say that an army is honoured in the person of its commander; but this argues a chivalrous spirit incompatible with money payments. When it comes to pocketing the coin, Tommy Atkins and Ram Singh do not at all feel that they have shared any gratification in seeing their generals pouch a lakh and a half each. If the little tip cannot be extended to Tommy Atkins and Ram Singh, because it would come too expensive, there is certainly a quarter in which the liberality of our countrymen might be well bestowed. There would be nothing sordid, nothing humiliating in the nation's gratitude being displayed in the form of money to the widows and orphans of those who have died by wounds or disease in its defence. Were it the practice after every war to appropriate a large grant to the purposes now sought to be served by private charity in the Patriotic Fund, no check need redden to accept in this form the tokens of England's approbation. Even the fifty thousand pounds bestowed of recent years upon three generals would have gone far to comfort the hearts of many a soldier's widow and orphans."

THE reports of the authorities of the Sydney and Melbourne branches of the Royal Mint show a large increase in the manufacture of Australian sovereigns over previous years, the gold coinage for the year being upwards of 4½ millions sterling, of which only a very trifling proportion was in half-sovereigns. An interesting, though as it appears a rather embarrassing, feature in the melting of rough gold has been the occurrence of considerable quantities of those rare metals osmium and iridium, which were first discovered by Tennant in the early part of the present century in the ore of platinum. In some parcels of gold lately received from Tasmania these elements were found to amount to 3½ per cent. of the whole

IT appears from the annual report of the Deputy Master of the English Mint that the coinage of gold received through the customary channel of the Issue Department of the Bank of England amounted last year to four millions sterling only, or one million less than the average. On the other hand, the coinage of silver has exceeded £744,000—a larger amount than that of any year since 1874. The coinage of bronze, on the contrary, has barely exceeded £19,000, as against an average of £42,600 in the preceding five years—a fact doubtless due to the footing which the French bronze pieces have obtained. England has, it seems, twenty-three different coins in all; but these include silver pennies and silver two-penny and four-penny pieces which are now only coined as the customary form of the Royal bounty known as "Maundy Money." For Cyprus the Mint now coins bronze "quarter piastres," and for Jamaica pence, half-pence, and farthings in nickel.

THE Board of Trade report of railway accidents in England during last year shows that no cause of disaster is so common as the breaking of tyres of wheels. No fewer than 1,238 instances of tyres having failed were reported in the year, nearly four-fifths of which were found to have split longitudinally or bulged. One hundred cases were those of engine and tender wheels, and only 13 belonged to wheels of passenger carriages. Nearly all the remainder were tyres of wagons belonging, with the exception of a small proportion, to owners other than the railway companies. Altogether 28 passengers only were killed by accidents to trains during the year, as against 75 in 1879. On the other hand the number of injured was 905 as against only 602. This of course does not include the incidental loss of life and injuries, which bring the totals up to 1,135 killed and 3,959 injured.

FROM the complete returns obtained by the Secretary of the American Iron and Steel Association it appears that the production of rails of all kinds in the United States in 1880, exhibits a remarkable increase over previous years, reaching the enormous amount of nearly one million and a quarter net tons. Of these, nearly two-thirds were Bessemer steel rails—of which forty per cent. more were manufactured than in the previous year. Nearly half the quantity of rails of all kinds were produced in Pennsylvania, and twenty-two per cent. in Illinois, in which State, famous for its lead mines and possessing in its southern portion abundance of iron-ores, the metal manufactures seem to be rapidly extending.

THE United States Commissioner of Agriculture proposes to test the tea-producing capacity of South Carolina soil. He is firmly convinced that with careful culture the plant would flourish vigorously, and will produce a product of as good a quality as the best imported article. Two hundred acres near Charleston have been leased for twenty years from a gentleman much interested in the project, and 17,500 tea-plants will be set this season. The experiment is in charge of a man who for many years was engaged in tea-culture in India. The Commissioner avers that in three years' time he will have as fine a crop of tea as ever was raised.

IT has now been decided by the War Office Committee that the regiments which are to wear the kilt after the 1st of July, when the new scheme of Army organisation takes effect, are to be the present 42nd and 73rd (which become the Royal Highlanders, Black Watch)—tartan as at present worn by the 42nd; the 72nd and 78th (Seaforth Highlanders)—tartan, the Mackenzie; the 75th and 92nd (Gordon Highlanders)—tartan, the Gordon; the 79th (Queen's Own Cameron Highlanders)—tartan as at present worn by the regiment; and the 91st and 93rd (Sutherland and Argyll Highlanders)—tartan as at present worn by the 93rd. The following regiments are to wear the trews, viz.:—The present 1st Foot (now becoming the Lothian Regiment, the Royal Scots), the 21st (Royal Scots Fusiliers), the 26th and 90th (the Scotch Rifles), and the 71st and 74th (the Highland Light Infantry). The latter regiment will wear the tartan now worn by the 71st; the other three are to have one of special pattern, black, blue, and green. The 25th Regiment (King's Own Borderers), having been finally told off to York, is not to assume the trews, as at one time proposed, but will retain its present uniform.

THE next number of the *Contemporary Review* will contain two articles on the late Lord Beaconsfield. One, written by "Shirley," is a panegyric; the other, from the pen of Mr. Malcolm MacColl, gives the opposite points of view. The first writer quotes an unpublished letter which the deceased statesman wrote on July 31st, 1865. Mr. Disraeli said:—"I need not remind you that Parliamentary reform was a living question with the Tories for the quarter of a century at least that followed the Revolution of 1688. Not only Sir William Wyndham and his friends were in favour of annual Parliaments and universal suffrage, but Sir John Hinde Cotton even advocated the ballot. These were desperate remedies against Whig supremacy. It appeared to me in 1832 that the Reform Act was another 1688, and that influenced my conduct when I entered public life. I don't say this to vindicate my course, but to explain it. So, also, I looked then—as I look now—to a reconciliation between the Tory party and the Roman Catholic subjects of the Queen. This led thirty years ago and more to the O'Connell affair but I have never relinquished my purpose, and have now, I hope, nearly accomplished it. If the Tory party is not a national party, it is nothing." Mr. MacColl, in his article, gives the following anecdote:—"An accomplished peer (still living), who was a member of the House of Commons when Mr. Disraeli was delivering his philippics, against Sir Robert Peel, remonstrated with him after one of his fiercest attacks. 'You are overdoing it,' he said; 'you spoil the effect by showing your animosity so openly.' 'My animosity!' exclaimed Mr. Disraeli. 'I admire Peel more than any man living; but he slighted me, and it is necessary to my position to prove that I cannot be slighted with impunity. I have an influential connection; I am fighting against great odds, and I am obliged to use such weapons as I find most serviceable.'"

THE *Edinburgh Courant* of May 17th says that a six-nights' shooting match between Dr. Carver, "champion shot of the world," and Karl Jongh, "champion of the Transvaal," took place in the Waverley Market at Edinburgh. Shortly after eight o'clock the match was commenced. At the western end of the market a large white-painted board, reaching nearly from the floor to the ceiling, had been erected, against which the balls, being of blue coloured glass, presented distinctive marks. The balls were discharged in pairs, at short intervals, from springs placed on the ground. The marksmen, armed with double-barrelled rifles, were within from twenty to thirty yards range, and shot alternately at 100 consecutive balls. In the first round, Karl Jongh shattered 93 out of the 100, while Dr. Carver never missed a shot. In the second round, they struck 92 and 95, respectively; and in the third round, 94 and 86, respectively. Out of the 600, 560 were thus struck, of which Dr. Carver shot 281 and Karl Jongh 279. This over, the Dutchman engaged in some extraordinary pistol-shooting. At a distance of ten paces, a chestnut, a grape, and a hazel-nut were shattered; particular spots of a playing-card were struck; a grape, placed on the sharpened point of a lead-pencil, was destroyed, while the pencil-point was left intact; and, last of all, a grape fixed on the head of a youth was blown to pieces. The proceedings were concluded by Dr. Carver shooting at a number of glass-balls while on horseback.

COOK'S INDIAN TOURS.

WE have received a programme of Messrs. Thos. Cook and Son's next "personally conducted" tour round the world, which will commence from Liverpool or Glasgow on the 27th August next. The route will be *via* America—New York, Philadelphia, Washington, Boston, Niagara, Chicago, Salt Lake City, San Francisco; Japan—Yokohama, Tokio, Nikko, Kobe, Hioga, Kioto; China—Shanghai, Hongkong; The Straits—Singapore, Penang; Ceylon—Point de Galle, and Colombo; India; Egypt; and home through Italy and France. The "inclusive fare" for the complete tour is £370; but a traveller "may commence and terminate at any point of the circle, and fares will be quoted from and to any place *en route* upon application." Everything is provided for, to 100 lbs. of baggage from London to Galle and 60 lbs. from Galle to Bombay, Suez to Cairo, and Brindisi to London, with all charges for transhipping and expressing, and to "baggage and omnibus transfers between railways and hotels, while with the conductor." The only exception is that "no provision is made, on sea or land, for beer, wine, or spirits, but passengers can obtain, at their own expense, any kind of drinks." We append that part of the programme dealing with the Indian portion of the tour, and from Bombay to London:—

SATURDAY, January 7, 1882.—Leave Point de Galle for Calcutta; the call at Madras about midway; between Point de Galle and Calcutta depends on the state of the sea, the surf there sometimes rendering it difficult to land. It is expected to reach Calcutta on

FRIDAY, January 13.—Great Eastern Hotel.

N.B.—If the steamers work with regularity, and if desired by the party, instead of sailing from Point de Galle direct to Calcutta, the party could proceed by steamer from Colombo to Tuticorin (twelve hours across), thence by railway to Madura, Trichinopoly, Tanjor, and Madras, arriving at this place in time to take steamer leaving on the 9th January, so as to reach Calcutta on 13th January, thus giving an opportunity to see the fine Temples of Southern India; but the accomplishment of this detour depends a good deal on the regularity of the sailing of the steamers.

SATURDAY, Jan.	14.	To be spent in Calcutta, and in an Excursion of five days to Darjeeling, from which place the Himalaya mountains may be visited. (Mount Everest, 28,000 feet, the highest mount in the world.)

SUNDAY, February 5.—Arrive in Bombay.

MONDAY, February	6.	To be spent in Bombay, during which time excursions can be made by steamer, if desired, to the famed Caves of Elephanta.
TUESDAY,	7.	
WEDNESDAY	8.	

THURSDAY, February 9.—Sail for Aden and Suez.
TUESDAY, „ 21.—Expect to arrive at Suez. Suez Hotel.
WEDNESDAY, „ 22.—Take railway for Cairo. Shepheard's Hotel.

(At Cairo arrangements can be made for a trip to the Nile and for Palestine, which may occupy from one to two months, according to route selected. But for those who do not wish to ascend the Nile or go into Palestine the following route is proposed, but is not absolute, there being many ways across the continent, for any of which tickets can be supplied at increased or decreased rates, according to the route selected. Should there be ten members of the party wishing to travel in company, a conductor will be sent with them from Cairo to England.)

MONDAY, February 27.—Leave Cairo for Alexandria. Hotel de l'Europe.

WEDNESDAY, March 15.—Leave by express train for Paris, arriving there early next morning.
THURSDAY, March 16.—Proceed by morning express train to London.

The following is from a "Description of Routes" included in the programme:—

"India in the month of January is delightfully pleasant, and a run of 2,500 miles, as provided for in the programme, is a trip of varied and intense interest. The remains of the temples and tombs of the great Moguls, and the entire subjugation of pride and wealth to British rule, is a lesson of deep study to the inquiring visitor. The dark deeds of 1857 are seen in the decaying monuments of Lucknow, Agra, Delhi, and other places where the dreadful mutiny prevailed. The spots where Lawrence and Havelock fought and fell have a deep and mournful interest inscribed upon them, and the scenes of fourscore years of devoted missionary labours powerfully attract Christian visitors to Calcutta, Serampore, Agra, Delhi, and many other favoured missionary stations. Then, in India there live so many of the Anglo-Saxon race that we feel amongst them almost like living in Great Britain or America."

ADVICE TO MOTHERS!—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet sleep, by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by Medicine dealers everywhere at Is. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 33, Farringdon Road, London

G. I. P. RAILWAY IMPROVEMENTS.

THE NEW BYCULLA STATION AND THE NESBIT ROAD CROSSING.

THE following correspondence and Government Resolution have been sent to us for publication:—

P. W. Department, Railway,
Bombay Castle, 13th June, 1881.

Read again Bombay Government Resolution No. 1240, dated 17th June 1878.

Read also Bombay Government Resolution No. 889, dated 4th April 1881.

Letter to Government of India, No. 891, dated 4th April 1881, and accompaniment, being copy of letter to Government of India, No. 1814, dated 6th September 1879.

Letter to Government of India, No. 995, dated 13th April 1881.

Reply of Government of India to the above, No. 404 R. O., dated 27th May 1881:—

I am directed to acknowledge the receipt of your No. 891, of the 4th April 1881, submitting the extracts from the Minutes recorded at the meetings with Major-General Trevor, referring to the question of the Byculla overbridge, the Nesbit Lane crossing, and the transfer of the Byculla station, and in conveying the general approval of the Government of India to the recommendations sent forward, I am to add that, under the circumstances now explained, the Government of India is prepared to sanction the expenditure of the Rs. 50,000 asked for to purchase the land required between the Parel Road and the railway at the new Byculla station into the spare railway land near the present station between the Nesbit Lane and the Byculla overbridge being surrendered to Government as suggested in your letter No. 1814 of the 6th September 1878.

2. I am to request that the estimates for the new Byculla station, the new Byculla overbridge, and for laying the additional lines of rails through the present station may, after approval by the London Board, be submitted for the sanction of the Government of India.

3. In regard to the Nesbit Lane crossing and the memorial submitted with your No. 995, of 13th April 1881, I am to say that the Government of India approves of the proposal to shift the points connecting with the running engine shed sufficiently further to the south to enable an engine to run out or leave the shed without entailing the gates being closed across the road, as palliating to a certain extent the evils complained of, but I am to observe that a more satisfactory solution would be brought about if the engine shed were removed altogether from its present position—its situation cannot be looked upon as in any way suitable for traffic purposes, as it is about two miles from the Bori Bunder terminus and nearly a mile from that at Wari Bunder.

4. Its position was clearly admissible so long as the Locomotive shops were also at Byculla, but now that they have been removed to Parel, the Government of India would wish to be favoured with the views of the Government of Bombay whether the running shed should not follow the shops to Parel, leaving all trains between that place and the terminii to be worked by pilot engine.

5. The Government of India fully recognizes the difficulty of complying with the requests of the memorialists for an overbridge at the Nesbit Lane crossing, as there is not sufficient space between the railway and road to admit of proper approaches to an overbridge.

6. The removal of the Byculla station and of the engine shed will take away much of the inconvenience now experienced in the use of the Nesbit Lane crossing, as it is understood that two additional lines of rails are required at this crossing to provide proper facilities for the railway traffic, I am to request that an estimate of the cost of a foot overbridge, and of the new road referred to in your letter No. 995, the construction of which commends itself to the Government of India, may be submitted for consideration, with an expression of the views of the Government of Bombay as to the incidence of the cost of these works.

Resolution.—The letter of the Government of India should be communicated to the Consulting Engineer for Railways, the Agent, Great Indian Peninsula Railway Company, the Municipal Commissioner, and the Collector of Bombay.

2. The Agent should take the earliest possible steps to ascertain whether the Board of Directors approve generally of the proposed arrangements.

3. Estimates for the new Byculla station and for an overbridge to accommodate four lines of rails on the design prepared in 1878 and approved in Bombay Government Resolution No. 1240, dated 17th June 1878, should at once be put in hand, the views of the Municipal Commissioner being ascertained as to the necessity for providing the extra width of roadway which, in accordance with that Resolution, will, if provided, have to be paid for by the Municipality. The estimate should include the cost of laying two additional lines of rails through the present station to join the lines already laid from the south of the Nesbit Lane crossing to Bori Bunder.

4. These estimates to be submitted for the sanction of Government after approval by the Board of Directors.

5. As soon as the assent of the Board has been obtained to the establishment of the new Byculla station at the site proposed, the necessary steps should be taken for acquiring the extra land required there, the purchase of which has now been sanctioned by the Government of India, and the improvement of the road approach on the west side should be taken in hand by the Municipal Commissioner. (Para 14 of letter to Government of India, No. 1814 of 1878.)

6. The Agent should report on the question of the removal of the running shed from Byculla, (it is understood that the work of shifting the points leading to the running shed further to the south of the Nesbit Lane crossing is already in hand.)

7. An estimate should be submitted of the probable cost of a foot-bridge to accommodate for lines of rails at the Nesbit Lane crossing.

8. The Consulting Engineer should report after consultation with the Agent, the Municipal Commissioner, and the Collector, on the question of connecting the road referred to in paras. 3 and 4 of Bombay Government Resolution, No. 995 of 1881, and the incidence of the cost of the same.

9. As the chief obstacles to the improvement of the railway and road so long desired in the interests of the public have now been overcome, Government rely on the co-operation of the Railway Company and the Municipality to secure the early commencement and speedy completion of the works decided upon.

10. A copy of this Resolution should be forwarded to Sir Jamsetjee Jeejeebhoy, Bart., in continuation of Government letter No. 996, dated 1st April last.

H. F. HANCOCK, Colonel, R. E.,
Joint Secretary to Government.

BOMBAY.

TO-DAY.

Band, H. M.'s Marine Battalion, Apollo Bunder, evening.

VESSELS ARRIVED.—The following vessels arrived on the 15th:—Brantford City (s), from West Hartlepool. Yesterday:—Antisana (s), Cardiff.

VESSELS SAILED.—The following vessels sailed yesterday: Gulf of Suez (s), to Antwerp; Euphrates (s), Kurrachee.

MUSIC AT THE APOLLO BUNDER.—The following is the programme of music to be played by the band of H. M.'s Marine Battalion at the Apollo Bunder this evening (weather permitting):—

March	
Overture	Titus ..... Mozart.
Mazurka	The Alpine Rose ..... Strauss.
Selection	Macbeth ..... Verdi.
Valse	Fairy Visions ..... Coote.
Galop	Wie der Wind ..... Faust.
GOD SAVE THE QUEEN.	

PRINCE'S DOCK.—The s. s. Bessie Morris and the ship Austriana left the dock yesterday.

A PICK-POCKET.—Hoosein Dadoo, a noted character, was yesterday convicted by Mr. Dosabhoy Framjee of stealing Rs. 22 in cash from the person of Rahim Mugdoom. He was sentenced to two months' rigorous imprisonment.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 6th June was Rs. 17,19,944. In addition silver received during the week Rs. 1,471. New coin paid during the week Rs. 65. The balance left was Rs. 17,21,350.

ATTEMPTED SUICIDE.—Meetee, a woman, aged about twenty-five years, residing in Colaba Bazaar, swallowed a quantity of opium during the absence of her husband on Wednesday last in consequence of a quarrel with her mother and brother-in-law. She was removed to the G. T. Hospital, where she is apparently recovering from the effects of the opium.

SUDDEN DEATH.—A Coroner's inquest was held yesterday at the morgue, Cammateepoora, on view of the body of Ram Giree, aged 30 years. Deceased was a mendicant, who died suddenly while begging for alms at Walkeshwar on the day previous. The verdict was that the death of the deceased was caused by apoplexy from excessive use of bhang.

ASSAULTS.—Luximon Pandoo was yesterday convicted by Mr. W. Webb of assaulting Ruckmee, a woman, on the day previous. He was fined Rs. 15, in default to suffer three weeks' rigorous imprisonment.—Nowrojee Dadabhoy was also yesterday convicted by the same Magistrate of assaulting Dadabhoy Dosabhoy, and was fined Rs. 10, or in default to undergo fourteen days' rigorous imprisonment, and further to be bound over in a sum of Rs. 50 to keep the peace for a period of six months.

SUICIDE.—A Coroner's inquest was held yesterday at Mody Bay, Fort, on view of the body of Jaithashunker Soonderjee, aged fourteen years. Deceased, it appears, showed symptoms of insanity on more than one occasion. On the day previous he voluntarily swallowed half a tola of opium. Dr. Perozesha Pallonjee was called in and attended to the lad, but he died eight hours after the opium had been taken. A verdict of suicidal death was recorded.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ending Tuesday, 14th June, was 394, being 81 less than in the previous week, 25 more than the week ending 15th June, 1880, and 107 less than the mean of the corresponding period in the preceding five years. During the week 291 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 30·17. There were 90 deaths from remittent fever, being 28 less than the previous week and 32 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and disentery were last week 33, 10, and 8, respectively, as compared with 29, 8, and 11 last year. There were 11 deaths from cholera last week as compared with 31 in the week previous. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

BENGAL.

MUNICIPAL COMMISSIONERS AND MUNICIPAL CASES.—Following upon the judgment of the High Court in the case of the Calcutta Corporation *vs.* Mr. Wood, Mr. Marsden, Chief Presidency Magistrate, has, we hear, addressed Mr. Ganesh Chunder Dutt, Collector to the Municipality, to the effect that he, cannot, in future, sit in the trial of Municipal cases. A similar intimation has also been made to the Municipal Commissioners generally.

THE DARJEELING TRAMWAY.—The Darjeeling tramway line is all but completed, and will be opened right through within a very short time. The marvellous thing about this line has been, that it has paid from its very opening; and even when only a portion was opened, it commenced to earn handsome profits. Such, we might have said, would be the result of all similar lines, when constructed in localities where traffic exists. Where traffic to a certain extent has to be made, a tramway or light railway may safely be expected to assist materially in making it. There is no reason why light feeder lines should not take the place of the main roads leading to the principal stations on the trunk lines. Until this is done, and the trunk lines doubled all through, the full capabilities of the railway system will never be known.—*Statesman.*

CRUSHED TO DEATH.—A disastrous event occurred on the 11th inst., in which several persons were injured, and some lives lost. From enquires made, it was ascertained that several persons were engaged on Thursday last, repairing the roof of a tiled shed, situated at 81, Clive Street. While thus engaged, the roof suddenly fell in, precipitating the whole to the ground from a height of about 50 feet. Khwaree Bewa and Jhoree Bewa, aged 60 and 45 respectively, were amongst the number. The former expired within a few minutes after the accident. The only visible injuries about her were a cut on the right forearm, and a contusion over the left eye. The latter, with sixteen others, were likewise more or less injured, and were removed to the Medical College Hospital, where their injuries were attended to. Bechan Bewa, however, also succumbed on the 12th inst. She was found to be hurt in both her hips and had slight cuts on her head and body. The house in question is owned by Baboo Gobind Lall Seal, and is tenanted by Mr. J. B. Feilman.—*Indian Daily News.*

FATAL ACCIDENT.—Joseph Jackson, of the B. S. Culzean, lying in No. 3, Hastings Moorings, met with his death on Thursday evening, under the following circumstances. A number of the ships people were bathing in the river, and amongst them was the deceased who plunged in off the gangway ladder, swam about twenty feet off, and was then observed to sink and rise a number of times. George Phelan, an apprentice, conceiving that Jackson was drowning, went to his rescue, and when close to him, made him (Jackson) put his arm round his (Pharco's) neck for support and struck towards shore. After proceeding a short distance both were observed to sink, and rose again to the surface separated. The drowning man then clutched hold of Michael Farrell, an able seaman, and the two sank, Farrell coming up shortly afterwards, was picked up, but was seen no more until 2 p. m. yesterday, when

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, &c.

DR. DE ROOS' COMPOUND RENAL PILLS

ARE celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints, Discharges of any kind, Stone in the Bladder, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate stomach, strengthen the digestive organs, increase the appetite, improve the general health, and in three days will effect a cure when copaiba, cubebs, and all dangerous medicines of that class have utterly failed.

These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone, many thousands are annually restored to health, and the agonies of gout and rheumatism may now be considered a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weakness across the loins, sandy or other deposit in the water, and in all cases of reval or urinary disturbance, they are indeed unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packets 1s 1½d., 2s. 9d., 4s. 6d., 11s. & 33s.

THE MOST WONDERFUL PILLS IN THE WORLD
DR. DE ROOS'
PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.

ALL sufferers from general nervousness, and morbid feelings, low spirits, loss of memory, sleeplessness, harassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, headache, noises in the head, giddiness, indigestion, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, which speedily and almost magically remove pain and diseases of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend, they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fulness at the pit of the stomach, pain between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy; and it is no small advantage that they can be taken at any time without danger from wet or cold, or necessity for restraint from business or pleasure. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present, curing the jaundice, and during pregnancy, clearing the skin, removing sallowness and pimples, purifying the blood, bracing the nerves, and marvellously invigorating the whole system. Females of all ages will find them invaluable, and should never be without them. Price 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 33s. per box.

THE MOST ASTOUNDING CURES

Are daily being effected in cases of Nervousness, General Debility, Impurity of the Blood, Defective Circulation, Languor, Lassitude, Depression of Spirits, Indigestion, Pain and Palpitation in the Side, &c., &c., by
DR. DE ROOS'
WORLD-FAMED GUTTÆ VITÆ, OR VEGETABLE LIFE DROPS,

whose effects are really magical in restoring lost tone to the system (arising from whatever cause), re-invigorating and enlivening the whole corporeal frame, and gradually, but effectively, building up the most shattered constitution.

Although this truly wonderful recuperative tonic is not put forward as imparting immortality, it is not too much to say that by its means new life is, as it were, imparted to the nervous and debilitated, who were evidently sinking into an early grave; whilst to those of maturer years it will greatly and strongly protract the close of life. Thousands of apparently hopeless cases, given up by the faculty, are now in the enjoyment of health (life's greatest blessing), a living testimony to the unspeakable value of this remarkable medicine. Hundreds of testimonial, too numerous to publish, may be seen by any one. This preparation is extremely pleasant to take and none need suffer while such a miraculous medicament is in existence. Persons of studious habits, debilitated females, and those on whom the weight and wear of life is beginning to tell, should persevere steadily with this life-reviving tonic for one month and they will be astonished at its results. All those who have tried other means, galvanic and electric appliances &c., without any beneficial result, are earnestly recommended to make fair trial of this medicine, which, being concocted on the highest scientific principles invariably gives the utmost satisfaction. Price 11s. and 33s. per bottle. Every package of Dr. De Roos' Preparations has the words "Walter de Roos, London," printed in white letters on the British Government stamp by order of Her Majesty's Hon. Commissioners. Sold by Messrs. Treacher & Co., Limited Bombay Messrs. B S. Madon and Co., Bombay; and all the principal merchants in India.
